

Table of Contents

Title Page	i
Copyright Page	ii
Preface	iii
Abstract and Overview	v
Table of Contents	vii
Chapter 1: Introduction	1
Structure of this Text	11
Daubert Challenge	17
Chapter 2: Empirical Benchmark Measures of the DLOM	19
Flaws in IPO Studies?	19
Flaws in Restricted Stock Studies?	23
Misinterpretation of Bajaj <i>et al.</i> (2001)?	28
Dissimilar Asset Characteristics	30
Dissimilar Investors	31
Summary Data	35
Real Estate Investment Trusts (REITs) and Real Estate Limited Partnerships (RELPs)	36
The Typical REIT Discount	36
The Typical RELP Discount	38

A Sanity Check	39
Chapter 3: Fair Market Value Standard	43
How to Select the Hypothetical Investor?	47
The Hypothetical Investor and Non-Systematic Risk	50
Historical Earnings	59
Multiple Counting	61
Summary	62
Buy-Sell Agreements	64
Definition of the Willing Buyer	68
Chapter 4: Further Discussion Relating to the Fair Market Value Standard	77
The Nature of Risk	77
Dividend-Paying Capacity	84
Removing Non-Systematic Risk Adjustments	92
Important Clarification: Lack of a Market versus Lack of Marketability	99
The McCord Case	103
An Unprecedented Conclusion?	105
DLOM for Controlling Interests—Should the Debate be Ongoing?	107
<u>Figure 4.1: Including Only the Hypothetical Seller in the Hypothetical Transaction</u>	114

Figure 4.2: Including Only the Hypothetical Buyer in the Hypothetical Transaction 115

Figure 4.3: Including Both the Hypothetical Seller and the Hypothetical Buyer in the Hypothetical Transaction 116

Chapter 5: Hidden Discounts? 121

SGLPTL Adjustments 121

Normalizing Adjustments for Control 127

Present Value Discount Rate 135

Figure 5.1: Relationship Between the d Adjustment and the DLOM Adjustment 138

Representative Earnings 141

Chapter 6: Present Value Discount Rate 147

The Nature of the Hypothetical Investor 159

The Required Rate of Return Concept 164

Equity Risk Premium 165

Small Company Size Premium 170

Chapter 7: Conventional Theory Underlying a DLOM 173

Required Rate of Return 173

An Appraiser's (Implicit) Underlying Theoretical Analysis of the DLOM 174

Figure 7.1: Implicit Analysis Underlying the Typical
Fair Market DLOM 175

Sansing (1999) 178

Chapter 8: A Portfolio Discount? 181

Conglomerate Discount 182

REIT Discount 184

Further Theoretical Discussion of REITs 189

Imperfect Information 191

CBIZ Valuation Group (2000) 194

**Chapter 9: Discount for Lack of Control for Minority
Interests in Managed Asset Portfolios?** 197

Evidence from Open-Ending 203

Comparing the Typical Closed End Fund with the Typical
Open End Fund 204

DLOC for Minority FLP Interests? 219

Conclusion 220

Chapter 10: Advocacy 221

Analysis 223

An External Solution? 233

Conclusion 235

Chapter 11: Quantitative Methods in the Business Valuation Literature 237

Subjective Adjustments Cannot be Objective? 237

Factor Analysis 242

The Economic Components Model (ECM) 244

Quantitative Marketability Discount Model (QMDM) 248

Duff & Phelps Size Studies 253

Chapter 12: Managed Asset Portfolio Market Analysis 257

Underlying Theoretical Support 257

Figure 12.1(a): MAPMs Type-A and B 259

Figure 12.1(b): MAPM Line 259

Empirical Analysis 260

Figure 12.2(a): Possible MAPM Lines (Assuming Zero FLP Market Trade Volume) 262

Figure 12.2(b): Range of Average FLP DLoms (Assuming a Positive FLP Market Trade Volume) 262

Figure 12.2(c): A Narrower FLP DLom Range? 267

MAPM Analysis Example 268

A Convex MAPM Line? 275

Figure 12.3: Convex MAPM Line? 275

<u>Figure 12.4(a): Short-Run vs Long-Run Response to Price Changes</u>	277
<u>Figure 12.4(b): Long-Term Linear MAPM Line</u>	277
Distribution Policy and FLP DLOM	278
Summary and Overview	281
Chapter 13: The Fair Market DLOM	283
The Hypothetical Market Determines the Fair Market Discount	283
Liquidity	288
Transaction Costs	289
Liquidity, Transaction Costs and the Equilibrium Discount for Lack of a Market (DLOM)	291
<u>Figures 13.1(a) & 13.1(b): Incidence of a Fair Market DLOM in a Home Sale</u>	294
Inclusion of the Seller's Transaction Costs	296
<u>Figure 13.2: Calculating the Fair Market DLOM</u>	298
Inclusion of Both the Buyer's and Seller's Transaction Costs	298
If One Applies Only the Hypothetical Buyer's Expected Future Transaction Costs	300
The Marginal Investors' Transaction Costs	301
<u>Figures 13.3(a) and 13.3(b): Individual Seller's Total Transaction Cost Curve</u>	303
<u>Figures 13.3(c) and 13.3(d): Individual Buyer's Total Transaction Cost Curve</u>	305

<u>Figure 13.3(e): The Total Transaction Cost Curve</u>	306
Fair Market Analysis of the DLOM	307
<u>Figures 13.4(a) and 13.4(b): Economic Analysis of a Fair Market DLOM</u>	309
A DLOM Can Exist Only When an Appraiser Violates the FMVS's Required Assumptions?	312
Adding Uncertainty and Liquidity Preference	315
A Complete Fair Market Analysis of the DLOM	319
<u>Figure 13.5: Complete Economic Analysis of a Fair Market DLOM</u>	321
Application to a Minority FLP Interest	322
<u>Figure 13.6: Typical CEF Share IPO</u>	324
<u>Figure 13.7: Typical FLP's Supply Curve</u>	326
Conclusions	328

Chapter 14: The Foundation for the DLOM—The Traditional CAPM 331

The Traditional CAPM: Sharpe (1964)	333
<u>Figure 14.1: Sharpe's (1964) Individual's Investment Utility Function</u>	339
<u>Figure 14.2: Sharpe's (1964) Capital Market Line</u>	339
The Traditional CAPM—A Demand-Side Theory?	342
<u>Figure 14.3: The CAPM Equation Represents the Demand-Side of an Asset's Market?</u>	346

<u>Figure 14.4</u> : Mishkin's (1995) Theory of Asset Demand and the CAPM; An Exogenous Increase in β_i	349
Explicitly Including the Supply-Side of a Competitive Asset Market	350
<u>Figure 14.5</u> : Supply Assumption Underlying the Traditional CAPM	352
<u>Figure 14.6</u> : The Present Author's Supply Assumption	352
Mossin (1966)	353
Chapter 15: Alternative Risk-Return Paradigm	357
A Positive Relationship between Risk and Return?	357
Expected Utility Maximization	363
Asset Market Equilibrium	367
Market Price-to-Risk Ratio	373
Traditional Assumptions—Risk-Averse Investors and Normal Probability Distributions	374
<u>Figure 15.1</u> : Risk Measured by Variance of Expected Rates of Return	375
Alternative Risk-Return Analysis	379
<u>Figure 15.2</u> : Market for Asset 1; Traditional CAPM's Positive Risk-Return Relationship	380
<u>Figure 15.3</u> : Market for Asset 1; A Negative Risk-Return Relationship	387
The Long-Run Risk-Return Relationship	392

Figure 15.4: Fundamental Expected Rate of Return
versus Short-Run Expected Rate of Return 394

Figure 15.5: Long-Run Adjustment Dynamics 395

Conclusion 396

Note 396

**Chapter 16: Mathematics Underlying Chapter 15's
Analysis of the Competitive Risk-Return
Relationship** 399

Model and Assumptions 399

Mathematical Analysis 402
